## ZANOLLI CITIZEN EP SERIES ELECTRIC DECK OVEN

Compact and Powerful. The Zanolli citizen EP electric deck ovens are a compact professional deck oven engineered to withstand the highest demands from the pizzaiola without any compromise on consistent and desired cooking results. Its heavy gauge chassis along with its robust stainless steel construction ensures this oven will serve the test of time. The citizen is also completely modular so you can build up your oven according to your production needs with the possibility to stack up to 3 units. Based on your specialization, you can cook not only different kinds of pizza (round, on the shovel or in pan...) but also a wide range of gastronomy dishes made possible by the accurate and adjustable independent control of the top and bottom resistors. Utilising the maximum oven insulation along with its refractory stone floor(s), the citizen can and will produce a stable and consistent cooking environment to produce the perfect cooking result and of course a leader in thermal efficiency.

## MAIN CHARACTERISTICS
